2017 HPC NATIONAL HOME PERFORMANCE

Conference and Trade Show

MARCH 19–22, 2017 • NASHVILLE, TENNESSEE

2017 HPC Heritage Award

Beginning in 2017, the Home Performance Coalition will recognize one of the many distinguished careers across the home performance and weatherization industry with the HPC Heritage Award, which will be presented annually at the National Home Performance Conference.

Our first recipient is Joel Eisenberg. Joel was a Senior Analyst for Public Policy at Oak Ridge National Laboratory (ORNL) and Manager of ORNL's support project for the US Department of Energy's Office of Weatherization and Intergovernmental Programs. In that capacity Joel supervised the Laboratory's work for the Weatherization Assistance and State Energy Programs. This included research to perform national and state-level evaluations of Weatherization, develop the National Energy Audit Tool, and support states in their efforts to leverage non-federal Weatherization resources.

Joel was the Weatherization Program's resident expert on the impact of changing energy markets on low-income consumers and has been responsible for estimating the impact of changing energy prices on their residential energy bills.

Joel Eisenberg passed away on October 3, 2016 and is survived by his wife, Meg Power and their children Emily Eisenberg Lobelo and Benjamin Eisenberg.
